INFORMATION FOR HOSPITALS

PHOTOS AND FEEDBACK

When donors are generous enough to grant you the essential equipment you need, we ask that you pass on feedback and photos to let them know the difference they have made.

We would love to receive your pictures, thanks and success stories to pass on and share with the greater Humpty community.

You can send these via email to medical@humpty.com.au

Please confirm that we have your permission to distribute your photos and feedback to the donor and on our social media channels.

PHOTO REQUIREMENTS

• The equipment should be clearly visible, in focus, from a good angle and with enough lighting.

• If you can, include people in the photo (staff or patients). For anyone featured in the picture, please be sure to let us know that we have their permission to share the image publicly, such as on social media. **If your photo includes patients or children, please note that we require the completed waiver overleaf.** If you can't get a media release, please make sure they are not identifiable.

We know that life in hospitals is busy and that not everyone is a professional photographer. Therefore, we are grateful for whatever photos you can provide. The below images are examples of ideal photographs.
